

Working Title: “Advisory Document on read-across based on data from new approach methodologies (NAMs)”

Authors

Disclaimer

1. Abstract
2. Table of content
3. Definitions
4. Introduction
5. Related publications, guidance documents, guidelines, etc.

6. Read-Across workflow

6.1. Problem Formulation

6.2. Target compound characterization

6.3. Preliminary read-across hypothesis

6.4. Source compound identification

6.5. Source compound evaluation

6.6. Data gap filling

6.6.1. Toxicodynamics

6.6.2. Toxicokinetics

6.7. Uncertainty assessment/ “Building Confidence”

7. Reporting of read-across

Annexes
